

Earnings Call Presentation

For the Quarter Ended June 30, 2025

Disclaimer

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking information” under applicable Canadian securities legislation and “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 (collectively, “forward looking statements”). Forward-looking statements and information generally can be identified by the use of forward-looking terminology such as “outlook”, “objective”, “may”, “will”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “should”, “plans”, “budget”, “continue” or similar expressions suggesting future outcomes or events. Forward-looking statements and information include, but are not limited to, statements regarding the operations, business, financial condition, expected financial results, performance, opportunities, strategies, outlook and guidance of Algoma Steel Group Inc. (the “Company” or “Algoma”), Algoma’s strategic objectives, its plate mill modernization project, potential purchases under its normal course issuer bid, and Algoma’s transformation to electric arc furnace steelmaking (the “EAF Transformation”), including the expected timing for completion of the EAF Transformation, and full EAF transition and the resulting effects on the Company, expectations regarding future economic conditions, including the price of steel, tariffs and/or trade wars, inflation and interest rates, Algoma’s capitalization and ability to create value for its shareholders.

Although we believe that our anticipated future results, performance or achievements expressed or implied by the forward-looking statements and information are based upon reasonable assumptions and expectations, the reader should not place undue reliance on forward-looking statements and information because they involve known and unknown risks, uncertainties and other factors, many of which are beyond our control, which may cause the actual results, performance or achievements of the Company to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements and information. Readers should consider the other risks and uncertainties set forth in the section entitled “Risk Factors” and “Cautionary Note Regarding Forward-Looking Information” in Algoma’s Annual Information Form for the 9 months ended December 31, 2024, filed by Algoma with applicable Canadian securities regulatory authorities (available under the company’s SEDAR+ profile at www.sedarplus.ca) and with the U.S. Securities and Exchange

Commission (the “SEC”), as part of Algoma’s Annual Report on Form 40-F (available at www.sec.gov), as well as in Algoma’s current reports with the Canadian securities regulatory authorities and the SEC.

Given these risks, uncertainties and other factors, readers should not place undue reliance on forward-looking statements or information as a prediction of actual results. The forward-looking statements and information reflects management’s current expectations and beliefs regarding future events and operating performance and is based on information currently available to management. Although we have attempted to identify important factors that could cause actual results to differ materially from the forward-looking statements and information contained herein, there are other factors that could cause results not to be as anticipated, estimated or intended. The forward-looking statements and information contained herein is current as of the date hereof and, except as required under applicable law, we do not undertake to update or revise it to reflect new events or circumstances.

Certain information in this presentation may be considered as “financial outlook” within the meaning of applicable securities legislation. The purpose of this financial outlook is to provide readers with disclosure regarding the Company’s reasonable expectations as to the anticipated results of its proposed business activities for the periods indicated. Readers are cautioned that the financial outlook may not be appropriate for other purposes.

PRESENTATION OF FINANCIAL INFORMATION

The Company’s fiscal year runs from January 1st to December 31st. The Company and its subsidiaries’ functional currency is the United States dollar (“US dollar” or “US\$”). The US dollar is the currency of the primary economic environment in which the Company and subsidiaries operate. The items included in the unaudited condensed interim financial statements are measured using the US dollar.

For reporting purposes, the unaudited condensed interim consolidated financial statements are presented in millions of Canadian dollars (“C\$” or “\$”). The assets and liabilities are translated into the reporting currency using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at average exchange rates for the reporting period. Exchange differences arising are

recognized in other comprehensive (loss) income and accumulated in equity under the heading ‘Foreign exchange on translation to presentation currency.’

The Company’s financial statements have been prepared in accordance with IFRS[®] Accounting Standards as issued by the International Accounting Standards Board (“IASB”) (“IFRS Accounting Standards”). The financial information presented herein may differ in certain material respects from U.S. generally accepted accounting principles (“U.S. GAAP”). As such, the Company’s financial statements are not comparable to the financial statements of U.S. companies prepared in accordance with U.S. GAAP.

This presentation should be read in conjunction with, the Company’s June 30th, 2025 unaudited condensed interim consolidated financial statements and the accompanying notes, and the related management’s discussion & analysis.

NON-GAAP MEASURES

To supplement our financial statements, we use certain non-GAAP measures to evaluate the performance of Algoma. These terms do not have any standardized meaning prescribed within IFRS Accounting Standards and, therefore, may not be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement those IFRS Accounting Standards by providing a further understanding of our financial performance from management’s perspective and providing management and investors with additional information for comparison of our operating results across different time periods and to the operating results of other companies. Accordingly, they should not be considered in isolation nor as a substitute for analysis of our financial information reported under IFRS Accounting Standards. Please refer to the Company’s most recent MD&A for further discussion of these non-GAAP financial measures, including Adjusted EBITDA, and for a reconciliation to comparable IFRS Accounting Standards, including net (loss) income. See also Annex: Adjusted EBITDA Reconciliation on slide 17.

Safety Without Compromise

Health & Safety Performance

- Ongoing commitment to superior Health & Safety performance has led to sustained improvement of safety metrics over time.
- Health & safety remains our highest priority and to further the Company's efforts to improve, we are implementing an ISO 45001 Safety Management System.
- Algoma employs a Joint Health and Safety System to provide a healthy and safe workplace.
- Proud participants in the WSIB Health & Safety Excellence Program, joining businesses from across Ontario in the exchange of best practices, training and development.

Continued Focus and Improvement in Lost Time Injury Frequency Rate (LTIFR)¹

Key Performance Highlights

Q2 2025 – Ended June 30th, 2025

- **Shipping Volume** was 472K NT in Q2 2025, up slightly from 470K NT in Q1 2025 and down 6% from 503K NT in Q2 2024.
- **Steel Revenue** was \$534 million in Q2 2025, up 15% from \$463 million in Q1 2025 and down 11% from \$597 million in Q2 2024.
- **Adjusted EBITDA** was (\$32) million in Q2 2025, up \$15 million from (\$47) million in Q1 2025 and down \$70 million from \$38 million in Q2 2024.
- **Net Income** was (\$111) million in Q2 2025, down \$86 million from (\$25) million in Q1 2025 and down \$117 million from \$6 million in Q2 2024.
- **Cash Position** was \$83 million at the end of Q2 2025 with availability of \$329 million under the Revolving Credit Facility.
- **Adjusted EBITDA margin Q2 2025 was -5.5%.**

Market Update

Macroeconomic Drivers

- Trade Policy and Tariffs
- Global Supply Chain Disruptions
- Economic Indicators – Canada
- Automotive Industry Dynamics
- Inflation
- Central Bank Policy

Key Market Drivers

- Increased US tariffs of 50% on imported steel and aluminum have further disrupted global steel markets. Tariffs on imported pig iron into the US are also expected to impact market dynamics.
- With the US essentially cut off from foreign steel imports, other countries including Canada have seen increased imports.

Historical Hot Rolled Coil (HRC) and As Rolled Plate Prices (ARP) (US\$/ton)

Committed to our Path Forward

We are positioning Algoma for a new era in steel, well-capitalized to make critical investments that enhance long-term performance and create value for our shareholders.

STRATEGIC DIRECTION

<p>OPERATIONAL & CAPITAL IMPROVEMENTS</p> <p>Algoma has developed and executed numerous operational and capital projects that add long term value to the business.</p>	<p>LADLE MET FURNACE #2</p> <p>Debottlenecks operations and increases capacity.</p> <p><i>Feb 2021</i></p>	<p>EAF APPROVAL</p> <p>Received Board approval to begin construction of Electric Arc Furnace.</p> <p><i>Nov 2021</i></p>	<p>PMM PHASE 1</p> <p>Enhancing quality and expanding grade range on Canada's only discrete plate mill.</p> <p><i>2022</i></p>	<p>LSP POWER PLANT</p> <p>Installation of new turbines to support power generation for EAF project.</p> <p><i>Jun 2023</i></p>	<p>PMM PHASE 2</p> <p>Final installation of key elements substantially complete.</p> <p><i>2024</i></p>	<p>EAF 2</p> <p>First heat achieved July 2025.</p> <p><i>2025</i></p>	<p>EAF 1</p> <p>Construction progressing, commissioning activities expected by the end of 2025</p> <p><i>2025E</i></p>
<p>FINANCIAL DISCIPLINE</p> <p>Algoma has focused on streamlining its balance sheet, finding effective sources of capital to fund its strategic initiatives and providing long-term value to stakeholders.</p>	<p>RETURN TO PUBLIC MARKETS</p> <p>Including Equity injection of \$306M USD.</p> <p><i>Oct 2021</i></p>	<p>REGULAR DIVIDEND</p> <p>Algoma commenced quarterly dividend of \$.05 per share.</p> <p><i>Mar 2022</i></p>	<p>SUBSTANTIAL ISSUER BID</p> <p>Algoma buys back approximately 1/3 of outstanding shares.</p> <p><i>Aug 2022</i></p>	<p>NORMAL COURSE ISSUER BID</p> <p>Algoma renewed its NCIB for share repurchases.</p> <p><i>2023/24</i></p>	<p>ABL RENEWAL</p> <p>Amend and extend Algoma's now upsized US\$300M asset-based loan.</p> <p><i>May 2023</i></p>	<p>DEBT OFFERING</p> <p>Opportunistically raised \$350M USD to strengthen balance sheet and mitigate risk.</p> <p><i>Apr 2024</i></p>	<p>LARGE ENTERPRISE TARIFF LOAN (LETL)</p> <p>Algoma in active discussions with the federal government regarding potential funding support.</p> <p><i>2025</i></p>

Appendices

De-Risked Transition and Ramp-Up Plan

Integrated Steel Making - Today

- Operating primary facilities including Coke Making, Blast Furnace #7, Basic Oxygen Furnace while construction is completed
- Unimpeded steel flow during construction
- Currently training EAF workforce within the current headcount
- **Finished Steel ~ 2.1- 2.2 Million Net Tons**

EAF Transition Steel Making – 2025-26

- EAF Steel Making began July 2025
- Continue operating Integrated Steel Making Operations in parallel with EAF operations, derisking EAF ramp-up
- EAF steel flow is expected to add incremental tonnage to integrated volumes improving fixed cost per net ton
- **Finished Steel ~ 2.4 -2 .5 Million Net Tons Expected**

EAF Steel Making – 2027 Onwards

- Shut Down Coke Making, BOF and Blast Furnace # 7
- Reduce emissions by approximately 70%
- Improve conversion costs and enhance margins
- **Finished Steel ~ 3.0 Million Net Tons Expected**

Algoma's 2024 Sustainability Report

Algoma Steel is proud to share its 2024 Sustainability Report covering the nine months ended December 31, 2024.

The report outlines our sustainability strategy, highlights progress made over the past year, and details how we are addressing sustainability risks while advancing opportunities that support a more sustainable future.

Now available on our website at www.algoma.com.

Annex: Steel Revenue and Cost of Sales

		Three months ended June 30,			Six months ended June 30,	
		2025	2024		2025	2024
<i>tons</i>						
Steel Shipments	↓ 6.2%	472,056	503,152	↓ 1.3%	941,787	954,118
<i>millions of dollars</i>						
Revenue	↓ 9.3%	C\$ 589.7	C\$ 650.5	↓ 12.9%	C\$ 1,106.8	C\$ 1,271.1
Less:						
Freight included in revenue		(44.7)	(45.9)		(95.8)	(93.5)
Non-steel revenue		(10.6)	(7.2)		(13.4)	(12.1)
Steel revenue	↓ 10.5%	\$ 534.4	\$ 597.4	↓ 14.4%	C\$ 997.6	C\$ 1,165.5
Cost of steel revenue (i)	↑ 1.3%	C\$ 588.5	C\$ 580.7	↑ 4.2%	C\$ 1,160.7	C\$ 1,113.6
Depreciation included in cost of steel revenue		(38.0)	(33.1)		(72.8)	(67.7)
Carbon tax included in cost of steel revenue		(10.4)	(9.5)		(13.9)	(15.9)
Cost of steel products sold	↑ 0.4%	C\$ 540.1	C\$ 538.1	↑ 4.3%	C\$ 1,074.0	C\$ 1,030.0
<i>dollars per ton</i>						
Revenue per ton of steel sold	↓ 3.3%	C\$ 1,249	C\$ 1,293	↓ 11.8%	C\$ 1,175	C\$ 1,332
Cost of steel revenue per ton of steel sold	↑ 8.0%	C\$ 1,247	C\$ 1,154	↑ 5.6%	C\$ 1,232	C\$ 1,167
Average net sales realization on steel sales (ii), (iii)	↓ 4.6%	C\$ 1,132	C\$ 1,187	↓ 13.3%	C\$ 1,059	C\$ 1,222
Cost per ton of steel products sold	↑ 7.0%	C\$ 1,144	C\$ 1,069	↑ 5.6%	C\$ 1,140	C\$ 1,080

(i) Cost of steel revenue includes the cost of steel tariffs. See "Tariffs" for further discussion.

(ii) See "Non-GAAP Measures" for information regarding the limitations of using Average net sales realization on steel sales.

(iii) Represents Steel revenue (being Revenue less (a) Freight included in revenue and (b) Non-steel revenue) divided by the number of tons of Steel Shipments during the applicable period.

Annex: Adjusted EBITDA Reconciliation

millions of dollars	Three months ended June 30,		Six months ended June 30,	
	2025	2024	2025	2024

1 - For fiscal year ended December 31, 2025 and onwards, period end date refers to the following: "Q1" - March 31, "Q2" - June 30, "Q3" - September 30, and "Q4" - December 31. Effective for fiscal year ended December 31, 2024, the Company changed its year end from March 31 to December 31. Therefore, for fiscal years prior to December 31, 2025, period end date refers to the following: "Q1" - June 30, "Q2" - September 30, "Q3" - December 31, and "Q4" - March 31.

2 - The definition and reconciliation of these non-IFRS measures are included in the "Non-IFRS Financial Measures" section of this MD&A.

3 - Pursuant to the Merger with Legato, on October 19, 2021, the Company effected a reverse stock split retroactively, such that each outstanding common share became such number of common shares, each valued at \$10.00 per share, as determined by the conversion factor of 71.76775% (as defined in the Merger Agreement), with such common shares subsequently distributed to the equity holders of the Company's former ultimate parent company.

Further, on February 9, 2022, the Company issued 35,883,692 common shares in connection with the earnout rights granted to non-management shareholders that existed prior to the Merger.

2023.

5 - On June 21, 2022, the Company commenced a substantial issuer bid in Canada and a Tender Offer (the "Offer") in the United States. On July 27, 2022, the Offer was completed and 41,025,641 common shares were purchased for cancellation.

6 - During the year ended March 31, 2024, the Company converted 70,920 deferred share units to common shares and issued 464,268 common shares upon exercise of earnout rights, Replacement LTIP units and Omnibus Plan LTIP units.

7 - During the nine month period ended December 31, 2024, the Company issued 755,730 common shares upon exercise of earnout rights, Replacement LTIP units and Omnibus Plan LTIP units.

8 - During the three month period ended March 31, 2025, the Company issued 75,000 common shares upon exercise of earnout rights.

As at June 30, 2025, 104,933,802 common shares were outstanding.

Glossary

Term	Definition
Basic Oxygen Furnace (BOF)	Vessel used to convert liquid hot metal from a blast furnace into steel.
Blast Furnace (BF)	Metallurgical furnace combining fuel, ores and flux to smelt iron ore to produce pig iron, which is fed downstream into a BOF.
Cogeneration	Also known as combined heat and power (CHP), a cogeneration plant uses gas generated from the steelmaking process to create electricity.
Coke	Fuel for a Blast Furnace that is made by heating coal in the absence of air.
Cold Rolled Sheet	Hot rolled steel that has been further processed to increase its strength and strength-to-weight ratio, providing better overall surface finish.
Continuous Casting	Process whereby molten metal is solidified into a "semi-finished" billet, bloom, or slab for subsequent rolling in the finishing mills.
CRU Index	Price index which is widely used throughout the steel industry. Prepared by CRU, a leading steel data provider (cruindices.com).
Electric Arc Furnace (EAF)	Method for producing steel with primary inputs of scrap steel and electricity. EAFs form new steel by heat charging material with an electric arc.
Hard Coking Coal (HCC)	A category of metallurgical coal that is converted to coke and used as fuel for the blast furnace in an integrated steel mill.
Hot Briquetted Iron (HBI)	Compacted form of direct reduced iron (DRI) that serves as a supplement for pig iron and scrap in electric arc furnace steel mills.
Hot Metal	Blast furnace iron ore that is charged to the BOF in hot liquid form.

Term	Definition
Hot Rolled Sheet	Carbon steel product commonly used for applications in which dimensional tolerances and surface finish quality is not critical (e.g. automotive accessories, stampings).
Iron Ore Pellets	Pellets are small balls of iron ore used in the production of steel that are agglomerated from fines.
Limestone	Also referred to as flux, limestone is an essential input in a blast furnace.
Ladle Metallurgy Furnace (LMF)	Holding furnace for hot metal coming out of the BOF or EAF, increases capacity of melt shop and allows for improvements to steel grade.
Metallics	Iron ore or similar products that are used to produce raw steel.
NOx	Nitrous oxide (NOx) is a greenhouse gas that traps heat in the atmosphere.
Net Sales Realization (NSR)	The average selling price of steel excluding costs of freight.
Pig Iron	Intermediate solid input made by smelting iron ore with a high-carbon fuel and reductant, such as coke, with flux for use as a feedstock in the BOF.
Plate	Includes steel sheet metal that is 5mm or thicker used for construction or structural purposes due to its low maintenance versatility (e.g. shipping containers, roofing, heavy equipment).
Prime Scrap	High quality, clean scrap metal that tends to trade at a premium to lower quality shredded scrap.
Slab	Thick semi-finished (intermediate) steel that is further converted into hot rolled sheet or plate.
Service Center	Wholesalers that may further process steel purchased from manufacturer (e.g. cutting or forming).
SOx	Sulfur oxide (SOx) is an air pollutant that has negative health consequences.
